

China CNC (Computerized Numerical Controlled) Machine Tool Market Report, 2007-2008

- The output of CNC machine tools in China was 126,000 units in 2007, up by 47% compared to 2006, and China-produced CNC machine tools have gradually replaced imported CNC machine tools, taking 30% shares in domestic market in 2007, up by 2% compared to 2006.
- According to China Customs, China has imported 57,000 metal machine tools during Jan-Jul 2008, decreased by 4% compared to the same period of 2006, with an import value of US\$ 4.35 billion, up by 11.5%.
- During Jan-Jul 2008, China has imported 10,000 CNC machines tools, decreased by 17.6% compared to the same period of 2006, with an average import price of US\$164,000 per unit, up by 25.3%.

- In terms of CNC machine tool output in china during Jan.-Oct. 2007, the provinces of Liaoning, Zhejiang and Jiangsu were the top three, especially the overall output percentage of Liaoning province was 25%.
