

**Global and China Lithium Iron Phosphate
(LiFePO₄) Materials and Battery Industry
Report, 2010-2011**

Aug. 2011

This report

- ◆ **Analyzes the LiFePO₄ Materials in China and Worldwide .**
- ◆ **Focuses on LiFePO₄ battery industry in China**
- ◆ **Highlights the operation of LiFePO₄ Materials enterprises and LiFePO₄ battery enterprises in China**

Abstract

Boasting high safety, long cycle life and high temperature resistance, lithium iron phosphate (LiFePO₄) battery has become the most cutting-edge product in the lithium battery industry, finding wide application in electric vehicles, power tools, electric bicycles and energy storage market over the past two years.

The rapid expansion of the lithium iron phosphate battery market has also spurred the demand for lithium iron phosphate materials. Currently, the global supply of lithium iron phosphate materials is highly under control of A123 System, Valence, and Phostech of the United States.

The report analyzes the market supply and demand of lithium iron phosphate materials in China and worldwide, and predicts the size of major application market of lithium iron phosphate batteries in China. In addition, the report focuses on seventeen key lithium iron phosphate materials producers in China and worldwide including A123 Systems, Formosa Energy & Material Technology Co., Ltd., Tianjin STL Energy Technology Co., Ltd., Pulead Technology Industry Co., Ltd. as well as eight key lithium iron phosphate battery manufacturers including BYD, Tianjin Lishen Battery Joint-stock Co., Ltd., Shenzhen BAK Battery Co..

Tianjin STL Energy Technology Co., Ltd. produces phosphate lithium battery anode materials. With continuous lithium iron phosphate materials preparation technology, it has expanded capacity in recent two years. Capacity of lithium iron phosphate materials in 2009 was 2,000 tons, and 4,000 tons in 2010. It has a total of 14 production lines.

Shenzhen BTR New Energy Materials, Inc. mainly produces lithium-ion battery anode and cathode materials. In 2010, it achieved sales and net income of RMB 600 million and RMB 77.33 million respectively. It's progressively expanding the capacity of lithium iron phosphate. Its 3,000T/Y lithium iron phosphate material project got approval in 2010, and is under construction at present. In 2011, it's engaged in the construction of a 2,000T/Y lithium iron phosphate material production line in Tianjin.

Key Lithium Iron Phosphate Materials Producers and Capacities in China, 2010

<i>Company</i>	<i>Capacity (ton/year)</i>
<i>Tianjin STL Energy Technology</i>	<i>4,000</i>
<i>Pulead Technology Industry</i>	<i>2,000</i>
<i>Yantai Zhuoneng Battery Material</i>	<i>600</i>
<i>Hefei Guoxuan High-tech Power Energy</i>	<i>500</i>
<i>Shenzhen Tianjiao Technology Development</i>	<i>500</i>
<i>Shenzhen BTR New Energy Materials</i>	<i>400</i>
<i>Hunan Haorun Technology</i>	<i>300</i>
<i>Xinxiang Chuangjia Power Supply Material</i>	<i>200</i>
<i>Xi'an TIHOO New Energy Materials</i>	<i>200</i>
<i>Xinxiang Huaxin Energy Materials</i>	<i>100</i>

BYD is China's only enterprise mastering the technology for large-scale production of automotive lithium iron phosphate battery pack. Its independently-developed "iron battery" has been successfully applied in BYD's all-electric E6 and hybrid F3DM vehicles. In 2011, BYD issued 79 million shares, raising RMB 2.192 billion, mainly for the lithium battery and automotive R & D and production base project. BYD will further increase its "iron battery" investment in the future.

Shenzhen Mottcell Battery Technology Co., Ltd. is mainly engaged in the production of lithium iron phosphate battery. Moving to the new plant in 2011, it has further expanded capacity, and now can produce 150,000 Ah of lithium iron phosphate batteries per day.

1. Overview of LiFePO4 Battery

1.1 Overview

1.1.1 Definition

1.1.2 Merits and Demerits

1.2 Industry Chain

2. Market of LiFePO4 Materials in China and Worldwide

2.1 Supply of LiFePO4 Materials in China and Worldwide

2.1.1 Supply Worldwide

2.1.2 Supply in China

2.2 Sales Volume of LiFePO4 Materials in China and Worldwide

2.2.1 Sales Volume Worldwide

2.2.2 Sales Volume in China

2.3 Price of LiFePO4 Materials

2.4 Patent Barriers of LiFePO4 Materials

3. Industry of LiFePO4 Battery in China

3.1 Supply

3.2 Demand

3.2.1 Electric Car

3.2.2 Electric Tools

3.2.3 Electric Bicycle

3.2.4 Energy Storage Market

3.2.5 Communication Industry

4. Key LiFePO4 Materials Manufacturers

4.1 A123 Systems

4.1.1 Profile

4.1.2 Subsidiaries in China

4.2 Valence

4.2.1 Profile

4.2.2 Subsidiaries in China

4.3 Phostech

4.4 Tatung Fine Chemicals Co., Ltd.

4.4.1 Profile

4.4.2 LiFePO4 Business

4.5 ALeees

4.5.1 Profile

4.5.2 LiFePO4 Material Business

4.6 Formosa Energy & Material Technology Co., Ltd.

4.7 Tianjin STL Energy Technology Co., Ltd.

4.8 Pulead Technology Industry Co., Ltd.

4.8.1 Profile

4.8.2 LiFePO4 Battery Business

4.8.3 Projects under Construction

4.9 Shenzhen Bei Terui New Energy Material Co., Ltd.,

4.10 HeFei GuoXuan High-Tech Power Energy CO.,LTD.

4.11 Hunan Shanshan Toda Advanced Materials Co., Ltd.

4.11.1 Profile

4.11.2 Main LiFePO4 Products

4.12 Xinxiang Huaxin Energy Materials Co., Ltd.

4.13 ShenZhen TianJiao Technology

Development Ltd.

4.13.1 Profile

4.13.2 Operation

4.13.3 Linyi Gelon Battery Material Co., Ltd.

4.14 Others

4.14.1 Yantai Zhuoneng Battery Material Co., Ltd.

4.14.2 NanoChem Systems (Suzhou) Co., Ltd.

4.14.3 Xinxiang Chuangjia Power Supply Material Co., Ltd.

4.14.4 Hunan Haorun Technology Co., Ltd.

5. Key LiFePO4 Battery Manufacturers

5.1 BYD

5.1.1 Profile

5.1.2 LiFePO4 Battery Business

5.1.3 Application Case of Iron Battery of BYD

5.2 Shenzhen BAK Battery Co., Ltd.

5.2.1 Profile

5.2.2 Operation

5.2.3 LiFePO4 Battery Business

5.3 Tianjin Lishen Battery Joint-Stock Co., Ltd.

5.3.1 Profile

5.3.2 Operation

5.3.3 More Investment in Motive Power Battery

5.3.4 LiFePO4 Battery Business

5.4 Shenzhen Mottcell Battery Technology Co., Ltd.

5.4.1 Profile

5.4.2 Operation

5.4.3 History of LiFePO4 Battery

5.4.4 Application Case

5.5 Wanxiang EV Co., Ltd.

5.5.1 Profile

5.5.2 Application Case

5.5.3 Competitive Edge

5.6 CENS Energy-Tech Co., Ltd.

5.7 Hipower New Energy Co., Ltd.

5.8 Crown Shuo (Suzhou) New Energy Co., Ltd.
