

**Global and China Lithium Titanate
Industry Report, 2012-2015**

Oct. 2012

STUDY GOAL AND OBJECTIVES

This report provides the industry executives with strategically significant competitor information, analysis, insight and projection on the competitive pattern and key companies in the industry, crucial to the development and implementation of effective business, marketing and R&D programs.

REPORT OBJECTIVES

- ◆ To establish a comprehensive, factual, annually updated and cost-effective information base on market size, competition patterns, market segments, goals and strategies of the leading players in the market, reviews and forecasts.
- ◆ To assist potential market entrants in evaluating prospective acquisition and joint venture candidates.
- ◆ To complement the organizations' internal competitor information gathering efforts with strategic analysis, data interpretation and insight.
- ◆ To suggest for concerned investors in line with the current development of this industry as well as the development tendency.
- ◆ To help company to succeed in a competitive market, and

METHODOLOGY

Both primary and secondary research methodologies were used in preparing this study. Initially, a comprehensive and exhaustive search of the literature on this industry was conducted. These sources included related books and journals, trade literature, marketing literature, other product/promotional literature, annual reports, security analyst reports, and other publications. Subsequently, telephone interviews or email correspondence was conducted with marketing executives etc. Other sources included related magazines, academics, and consulting companies.

Abstract

Depending on high safety, long service life, fast charging and other strong points, lithium titanate battery is identified as the first choice of automotive lithium battery, and the global lithium titanate demand will show explosive growth in future, and is expected to hit 16,500 tons in 2015 according to the development planning of the world's major lithium titanate battery manufacturers. Against this backdrop, enterprises in the United States, Japan, China and other countries have invested successively and arranged ahead of schedule to seize global market share, of which, the performance of Chinese enterprises is particularly eye-catching.

Benefiting from the support of national policies and the establishment of supporting industries, lithium titanate industry in China, despite a late start, has witnessed swift development. Currently, China has outdistanced the United States and Japan in the number of manufacturers and production capacity, thus becoming the world's largest lithium titanate producer.

As for the lithium titanate battery for the time being, enterprises including Yintong Group and Anhui Tiangkang Group have drawn up plans for large-scale lithium titanate battery capacity expansion, which will provide adequate power for future demand growth in the Chinese lithium titanate market. China's demand for lithium titanate is expected to reach 12,500 tons in 2015.

Demand for Lithium Titanate in China, 2010-2015 (Unit: ton)

Source: ResearchInChina <Global and China Lithium Titanate Industry Report, 2012-2015>

In addition to an introduction of the development of global and China lithium titanate industry, this report also focuses on the lithium titanate business of three foreign enterprises including ALTI, Toshiba and Titan Kogyo as well as six Chinese enterprises such as Yintong Group, Sichuan Xingneng New Materials, Shenzhen Tianjiao Technology and BTR Nano Technology.

As the world's first company to master the core technology of lithium titanate cathode materials, in 2005 ALTI successfully developed the lithium battery with lithium titanate as cathode materials, which was later applied to the electric cars of a U.S. electric bus company called Proterra. In 2010, Yintong Group acquired a 51% equity stake in ALTI. For now, ALTI has founded the world's largest lithium titanate production base in Wu'an, Hebei Province, with capacity up to 3,000 tons per year in 2012.

Being the first enterprise that develops lithium titanate and lithium titanate battery in Japan, Toshiba Corporation has already achieved mass production of lithium titanate batteries in 2008 and applied them to electric vehicles of Mitsubishi and other companies with success.

BTR Nano Technology is China's first developer of lithium titanate cathode materials, in 2010 its lithium titanate production capacity attained to 360 tons per year, which has been further enhanced since the company's relocation in 2011, and is currently up to 1,000 tons per year.

1. Overview of Lithium Titanate

- 1.1 Profile
- 1.2 Application
- 1.3 Industry Chain

2. Development Status of Global Lithium Titanate Industry

- 2.1 Development History
- 2.2 Industry Environment
 - 2.2.1 Supply of Cathode Materials
 - 2.2.2 Demand for Cathode Materials
 - 2.2.3 Competition among Cathode Material Enterprises
 - 2.2.4 Problems
- 2.3 Supply
- 2.4 Demand
- 2.5 Market Competition
- 2.6 United States
- 2.7 Japan
- Summary

3. Development Status of China Lithium Titanate Industry

- 3.1 Development Environment
 - 3.1.1 Policy Environment
 - 3.1.2 Technological Environment
 - 3.1.3 Industry Environment
- 3.2 Supply

- 3.3 Demand
 - 3.3.1 Influencing Factors
 - 3.3.2 Quantity Demanded
- 3.4 Market Competition
- Summary

4. Development of China Lithium Titanate Battery Industry

- 4.1 Development Environment
 - 4.1.1 Industry Environment
 - 4.1.2 Technological Environment
- 4.2 Production
- 4.3 Demand
 - 4.3.1 Quantity Demanded
 - 4.3.2 Demand Structure
- 4.4 Market Structure
- Summary

5. Key Enterprises Worldwide

- 5.1 ALTI
 - 5.1.1 Profile
 - 5.1.2 Operation
 - 5.1.3 Lithium Titanate Business
- 5.2 Toshiba
 - 5.2.1 Profile
 - 5.2.2 Operation
 - 5.2.3 Lithium Titanate Business
- 5.3 Titan Kogyo

- 5.3.1 Profile
- 5.3.2 Lithium Titanate Projects
- 5.4 Yintong Group
 - 5.4.1 Profile
 - 5.4.2 Lithium Titanate Business
- 5.5 Sichuan Xingneng New Materials Co., Ltd.
 - 5.5.1 Profile
 - 5.5.2 Lithium Titanate Business
- 5.6 BTR Nano Technology Co., Ltd.
 - 5.6.1 Profile
 - 5.6.2 Lithium Titanate Business
- 5.7 Shenzhen Tianjiao Technology Co., Ltd.
 - 5.7.1 Profile
 - 5.7.2 Operation
 - 5.7.3 Capacity Expansion
 - 5.7.4 Lithium Titanate Business
- 5.8 Hebei Strong-power Li-ion Battery Technology Co., Ltd.
 - 5.8.1 Profile
 - 5.8.2 Lithium Titanate Business
- 5.9 An Hui Veili New Energy Sources Corporation
 - 5.9.1 Profile
 - 5.9.2 Lithium Titanate Business
- Summary

- Crystal Structure of Lithium Titanate before/after Lithium-ion Transfers
- Lithium Titanate Battery Structure vs. Graphite Cathode Lithium Battery Structure
- Performance Characteristics of Lithium Titanate Cathode Materials
- Lithium Titanate Industry Chain
- Performance Comparison of Different Cathode Materials
- Global Cathode Material Output, 2006-2015
- Global Cathode Material Product Structure, 2006-2015
- Global Demand for Cathode Materials, 2006-2015
- Market Share of Global Natural Graphite Manufacturers, 2011
- Market Share of Global Artificial Graphite Manufacturers, 2011
- Global Lithium Titanate Capacity, 2010-2015
- Global Demand for Lithium Titanate, 2010-2015
- Capacity and Market Share of the World's Major Lithium Titanate Manufacturers, 2012
- Main Suppliers and Customers of Lithium Titanate Battery in USA, 2012
- Main Suppliers and Customers of Lithium Titanate Battery in Japan, 2012
- Global Lithium Titanate Capacity and Demand, 2010-2015
- Relevant Policies of China Lithium Titanate Industry, 2009-2012
- Sol-gel Synthesis Nano Lithium Titanate Process
- Background and Capacity of Chinese Lithium Battery Cathode Materials Manufacturers, 2012
- Lithium Titanate Capacity in China, 2010-2015
- New Energy Vehicle Output in China, 2011-2020
- Demand for Lithium Titanate in China, 2010-2015
- Capacity and Market Share of Key Lithium Titanate Manufacturers in China, 2012
- Lithium Titanate Capacity and Demand in China, 2010-2015
- Lithium Battery Output and Market Scale in China, 2006-2015

- Performance Comparison between Lithium Titanate Battery and Traditional Lithium Battery
- Lithium Titanate Battery Capacity and Output in China, 2010-2015
- Demand Structure for Lithium Battery in China, Nov. 2011-May 2012
- Demand for Lithium Titanate Battery in China, 2010-2015
- Demand Structure for Lithium Titanate Battery in China (by Field), 2011-2015
- Capacity of Key Lithium Titanate Battery Manufacturers in China, 2012
- Lithium Titanate Battery Output and Demand in China, 2010-2015
- Revenue and Net Income of ALTI, 2006-2015
- Lithium Titanate Projects of ALTI, 2012-2016
- Revenue and Net Income of Toshiba, FY2007-FY2015
- Lithium Titanate Battery Characteristics of Toshiba
- Capacity and Sales of Toshiba, FY2008-FY2015
- Lithium Titanate Capacity of Titan Kogyo, 2010-2014
- Subsidiaries and Businesses of Yintong Group, 2012
- Lithium Titanate Capacity of Yintong Group, 2011-2020
- Lithium Battery-Related Product Capacity of Yintong Group, 2011-2020
- Subsidiaries and Businesses of Sichuan Xingneng New Materials, 2012
- Lithium Titanate-Related Patents of Sichuan Xingneng New Materials
- Lithium Titanate Capacity of Sichuan Xingneng New Materials, 2012-2015
- Lithium Titanate Cathode Materials Production Process of BTR Nano Technology
- Lithium Titanate Cathode Materials Performance Index of BTR Nano Technology
- Lithium Titanate Capacity of BTR Nano Technology, 2010-2012
- Revenue and Net Income of Shenzhen Tianjiao Technology, 2008-2015
- Subsidiaries and Capacity of Shenzhen Tianjiao Technology, 2010-2012

- 
- Lithium Titanate Capacity of Shenzhen Tianjiao Technology, 2010-2012
 - Lithium Titanate Product Performance Index of Shenzhen Tianjiao Technology
 - Capacity Breakdown of Hebei Strong-power Li-ion Battery Technology by Product, 2012
 - Lithium Titanate Performance Index of An Hui Veili New Energy Sources Corporation
 - Capacity of Global Key Lithium Titanate Manufacturers, 2012

You can place your order in the following alternative ways:

1. Order online at www.researchinchina.com
2. Fax order sheet to us at fax number: +86 10 82601570
3. Email your order to: report@researchinchina.com
4. Phone us at +86 10 82600828/ 82601561
